

Calanthor — Master 1■Page GM Reference (v1.0)

Core Loop

D&D; baseline: d20 checks, AC/HP, initiative, actions.

Calanthor spice: Procedure Checks (fail■forward) + Domain Overlays (Track 2/4/6) + Counterplay■first monsters.

DCs & Checks

DC 10 Easy | 13 Standard | 16 Hard | 19 Extreme

Roll d20 + ability mod + proficiency (if proficient).

One■Modifier Rule: only one source of advantage/+PB applies to the same roll.

Procedure Checks (Fail■Forward)

On failure: you still progress, but pay one cost:

Time (extra turn/watch) • Supply (-1 SU / kit use) • Minor Strain (+1)

Condition (Chilled/Weighed/Blighted/Haunted/Silenced) • Tag

(Owed/Suspected) • Overlay tick (+1)

Domain Overlays (Track 2/4/6)

Track starts 0–2 (typical: 1).

Tick on obstacle fail, reckless choice (Fast pace), unsafe camp, or domain tell.

Cadence: usually 0–1 ticks/watch; max 2 without a major event.

At 2 / 4 / 6: trigger the domain's beats/events.

Combat Reminders

Counterplay minimum: Standard=2 (two categories), Elite=3, Boss=4 (include Choice/Bargain).

If a monster applies Medium control, give a tell + an option to end it early.

Conditions (Calanthor quick)

Minor Strain: currency; 3=Strained, 6=Worn.

Strained: once/scene GM may impose disadv on 1 roll tied to cause.

Worn: speed -10; no Fast travel; disadv CON saves vs environment.

Chilled: speed -10; first STR/DEX check/turn at disadv (reapply → Deep).

Weighed: speed -10; disadv Athl/Acro vs terrain (reapply → Anchored).

Anchored: speed 0; no reactions; ends end of next turn (can end early).

Blighted: disadv CON vs poison/disease; healing reduced; reapply → +1 strain.

Haunted: disadv Insight/Perception vs deception/illusions; 1st WIS fail/scene → +1 strain.

Silenced: no verbal casting (usually 1 round). Marked (Light/Dark): omen; social impact.

Social (Disposition Track 0–6)

Objective → Frame

(Parley/Investigation/Confrontation/Rite/Deception).

Start track 0–6; beats at 2/4/6.

Leverage (Proof/Need/Authority/Reputation/Fear/Mercy) reduces DC or grants +1 track.

Exploration & Travel

Watch ~4 hrs (overland). Turn ~10 min (site).

Roles each watch: Navigator, Scout, Lookout, Quartermaster, Ritualist/Witness.

Supply Units: 1 SU per watch (harsh domains may +1).

At 0 SU: each watch +1 strain; DC 13 CON save or gain domain condition.

Fast Monster Builder (60–120 sec)

1) CR band + Role. 2) Domain/Region + Primary element.

3) Pull chassis (AC/HP/DPR/Atk/DC). 4) Add 1 Trait + 1 Action + 1 Twist (grafts).

5) Add threshold package (if domain-linked). 6) Add counterplay (2/3/4).

7) Name = Domain word + creature word ("Oathstone Brute").
